

ATTRACTIONS:

1 FUTURE OF FLIGHT AVIATION CENTER & BOEING TOUR

425.438.8100, futureofflight.org, Paine Field, Everett
Witness commercial jet aviation in the making as you watch the world's largest jets assembled on the Boeing Tour. Then take a virtual flight into the future and explore the possibilities – even design and test your own jet!

2 FLYING HERITAGE COLLECTION

206.342.4242, flyingheritage.com, Paine Field, Everett
Experience Paul Allen's collection of historic 20th-century warbirds that changed the world! From priceless fighters to compelling exhibits, FHC shows how courage and innovation brought aviation from the Biplane to the space age. Don't miss our spectacular outdoor "Fly Days" from May-September, too!

3 HISTORIC FLIGHT RESTORATION CENTER

425.348.3200, historicflight.org, Paine Field, Everett
See the restoration process of aviation's most important aircraft produced from 1927 to 1957. All aircraft are restored to flying condition and flown regularly. Experience the roar of the F8F Bearcat or take a ride in a B25D Mitchell bomber named "Grumpy."

4 MUSEUM OF FLIGHT RESTORATION CENTER

425.745.5150, museumofflight.org/restoration-center, Paine Field, Everett
The expert restorers of the Museum of Flight work out of Paine Field to bring to life as many as three dozen vintage planes. In varying states of restoration, these treasured pieces are available for you to see.

5 LEGEND FLYERS

425.290.7878, Paine Field, Everett
The Legend Flyers re-creates, rivet by rivet, classic planes. Master technicians assemble to exacting specifications plane reproductions. Available by appointment. Come see what's next!

6 NAVAL AIR STATION ARLINGTON

**arlingtonnavalairmuseum.com
17928 59th Drive, Arlington, WA - Opening July 2011**
Experience firsthand the rich and immense history of U.S. Naval Auxiliary Air Station - Arlington. Observe a wide array of former naval aircraft in a World War II parachute loft.

AERIAL ADVENTURES:

7 FLIGHT LESSONS AND AERIAL TOURS

360.403.3470, ci.arlington.wa.us, Arlington Airport
From north Snohomish County's busy little airport, you can go to great heights! Take off behind the controls and learn to fly a plane yourself. Or sit back and relax as you take a sightseeing tour and see what makes our sound-to-mountain landscape so extraordinary.

Northwest Aviation Center

360.435.3337, www.nwac.aero

Out of the Blue Aviation

360.474.1060, OutOfTheBlueAviation.com

The only FAA approved school at Arlington offers all licenses, including Light Sport, with a variety of aircraft and many highly experienced instructors. FAA approved for scenic tours and air taxi, you can fly to the islands or Eastern Washington in comfort and style, getting there quicker and enjoying the beautiful Northwest scenery from the air! Open seven days a week.

Ridgeline Helicopters

360.435.4800, ridgelinehelicopters.com

Gold Aero

360.658.9700, goflyga.com

Wild Blue Aviation

425.876.0865

8 GLIDER RIDES

360.403.3470, ci.arlington.wa.us, Arlington Airport
From thousands of feet above the air, with only the wind to hear, you'll fly with the birds (and a trained pilot) in a glider ride. Take a lesson and come away ready to join the club, or bring your camera and end the day with spectacular photos you could only take from a glider!

Evergreen Soaring

425.238.6617, evergreensoaring.com

Northwest Eagle Soaring

425.235.1610, nwsoaring.com

9 AIRIAL BALLOON COMPANY

360.568.3025, airialballoon.com, Harvey Field
The beauty of the Pacific Northwest is best seen with a glass of champagne, and a lot of hot air! Romance a loved one or treat yourself. A nine-story hot air balloon will carry you over the Snohomish river valley to view the panorama of the Northwest's mountains, farmlands, rivers and lakes.

10 SNOHOMISH FLYING SERVICE

360.568.1541, x 222, snohomishflying.com, Harvey Field
Can't decide between flying a helicopter or an airplane? Try both! Scenic flights take you over our majestic valleys, mountains, oceans, rivers and waterfalls; see it all from the air. Snohomish Flying Service offers charter service for your ease and convenience.

11 SKYDIVE SNOHOMISH, INC.

360.568.7703, skydivesnohomish.com, Harvey Field
Experience the freedom of flight - by jumping out of an airplane! Skydive for the first time or get licensed and never stop. Your parachute will bring you to a gentle landing, but your imagination will continue to soar!

AREA AIRFIELDS:

Seven local airports call Snohomish County home, including Paine Field, a controlled airport with ILS (Instrument Landing System). All other airports listed below are uncontrolled.

SNOHOMISH COUNTY

100 YEARS OF FLIGHT

For more than a century our eyes have been drawn to the skies, our ears to the roar of the engine, our hearts to the winged flight of iron birds. The thrill never puts down its landing gear!

Steeped in aviation, Snohomish County has seen 100 years of flight over its valleys. With aviation kingpin, The Boeing Company at its center, the energy behind the modern advances in flight, from the venerable 747 jumbo jet to the new 787 Dreamliner, is matched only by the devotion to aviation heritage.

The trained experts of an aerospace giant may retire, but they don't leave. These devotees give Wartime birds their time and talent as they restore vintage aircraft. Rosie the Riveter is reborn as Rosie the Restorer, and planes are re-constructed, or, as in the case of the Messerschmitt 262 fighter, completely re-created – piece by piece.

The expectant whir of the rivet gun takes a back seat to the thunder of Historic Flight Foundation's collection of aircraft produced between 1927 and 1957. These aircraft take off regularly in vivid re-creation of breathtaking and thunderous flight. The historically significant, winged gems of the Paul G. Allen's Flying Heritage Collection take to the skies on selected summer Saturdays, giving engines their paces and visitors raised heart rates.

If having your eyes and ears filled with the sensation of vintage flight and modern jets is not enough, take to the skies yourself. The possibilities are nearly limitless. From small aircraft, new and old, to helicopter or hot air balloon, or from beneath a parachute or a glider's wings, feel the wind for yourself.

Then, know why this century of flight has ignited such passion, innovation and possibilities.
